

Kate Shilvock joined the GSLS Board in November of 2019, and brings with her 20 years of nonprofit leadership experience and board service. In her career as a nonprofit director, her primary areas of focus were fundraising, marketing and operations. She has secured hundreds of millions of dollars in charitable giving, and helped lead nonprofits both large and small to successfully achieve their mission and vision. Kate has her MA in Nonprofit Administration where the focus of her research was how small nonprofits define themselves in competitive environments. She currently manages her own consulting company where she helps her nonprofit clients build and strengthen their foundations of support, assisting with everything from organizational staffing to board coaching. Kate has served and continues to serve on boards in both San Francisco and Marin, all with a focus on youth and community, and she is excited to bring her professional qualifications and diverse board experiences to support the school where hers and many other children grow and thrive.
